

How to import AirflowWCS

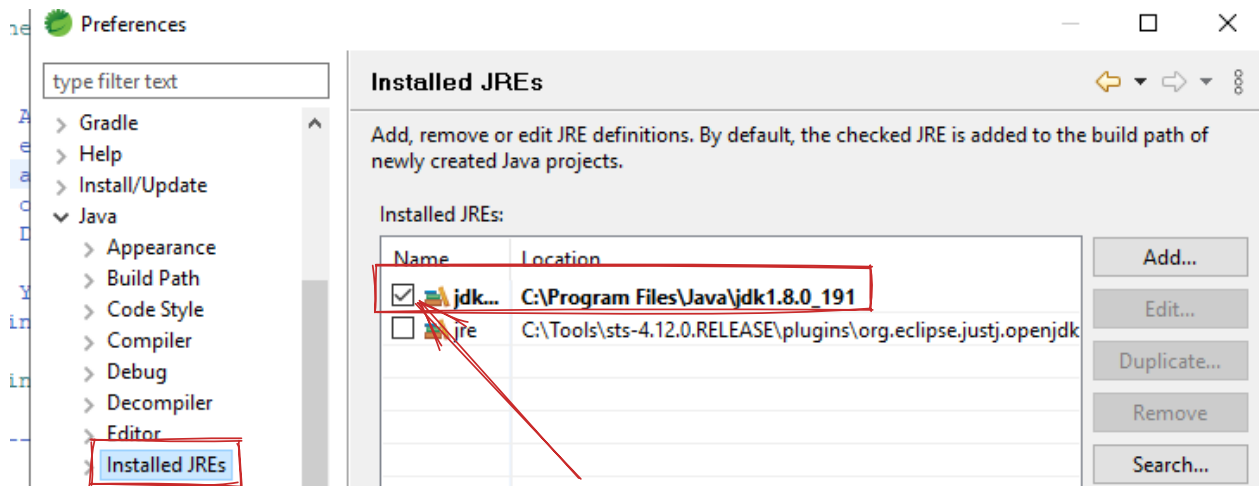

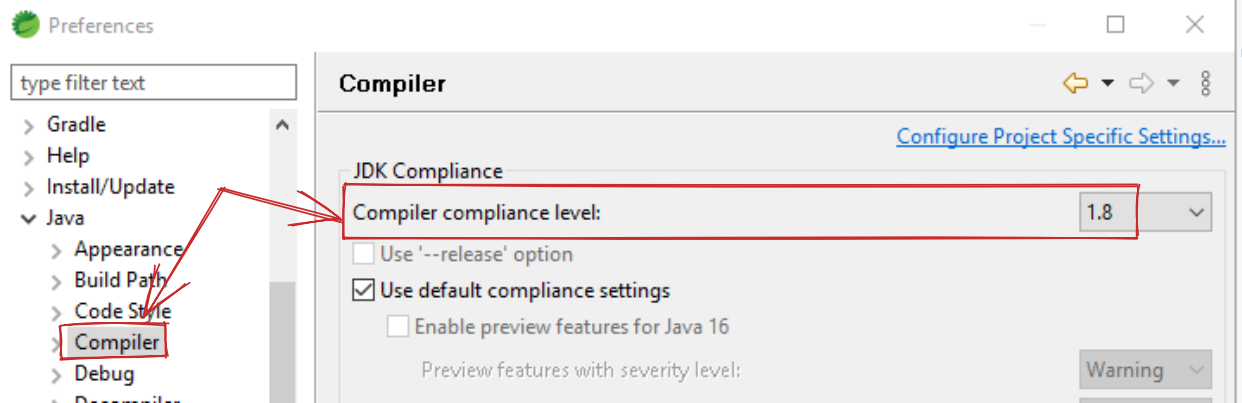

Using Git Bash

```
# Checkout the project
$ cd /c/Projects
# It will be downloaded into C:\Projects\AirflowWCS
$ git clone ssh://tfs.bcs.local:22/tfs/BCS/AirflowWCS/_git/AirflowWCS
$ cd AirflowWCS
# Optional, main branch by default
$ git checkout Lucas-Dev1
# Initial build
$ mvn clean install -DskipTests
# git status should be clean even after build
$ git status
```

STS/Eclipse

- File - Import - Maven - Existing maven project
- You will have to add Java 8 in **Installed JREs** and adjust Compiler compliance level in Java > Compiler > Compiler to **1.8**

Check only Java 1.8
